CHARLOTTE, NC - May 4, 2016 - LendingTree, Inc. (NASDAQ: TREE), operator of LendingTree.com, the nation's leading online loan marketplace, today announced results for the quarter ended March 31, 2016.

"We had an outstanding start to the year," said Doug Lebda, Chairman and CEO. "Every lending category experienced both quarter-over-quarter and year-over-year growth, exceeding our guidance across the board. Mortgage performed exceptionally well with purchase and refinance each experiencing impressive growth, once again outpacing the overall mortgage market. In non-mortgage, the growth trajectory continued across all categories. Personal loans, home equity and reverse mortgage each experienced triple-digit year over year growth and revenue from credit cards increased almost 40 times over the same quarter last year. We are thrilled with this quarter's results, and we are particularly excited about the long-term growth opportunities ahead."

Gabe Dalporto, Chief Financial Officer added, "Once again, we delivered record revenue, Variable Marketing Margin and Adjusted EBITDA. Our first quarter results clearly demonstrate the type of top and bottom-line growth this business is capable of. We are committed to delivering both near-term profits and long-term growth to our shareholders. Given our relative outperformance in the first quarter, we're choosing to accelerate investment in several key initiatives throughout the second quarter that are expected to yield gains in the second half of the year and beyond. With that in mind, we're increasing our revenue outlook for the full year and maintaining our Adjusted EBITDA guidance of \$62 to \$65 million which, at the mid-point, reflects year-over-year growth of 56 percent."

First Quarter 2016 Business Highlights

- Revenue from mortgage products of \$55.0 million represents an increase of 49% over first quarter 2015 and sequential growth of 17% compared to fourth quarter 2015. These results reflect substantial growth in both new purchase and refinance and further demonstrate our ability to grow market share. Mortgage originations nationwide increased 4% year over year and declined 14% sequentially, according to Mortgage Bankers Association.
- Revenue from non-mortgage products of \$39.7 million in the first quarter represents an increase of 186% over the first quarter 2015 and now comprises 42% of total revenue.
- Notably, revenue from all of our lending categories grew compared to both the prior year and prior quarter periods.

• Enrollment growth in My LendingTree continued, as more than 3 million consumers have now joined the My LendingTree personalization platform.

LENDINGTREE'S PRINCIPLES OF FINANCIAL REPORTING

LendingTree reports Earnings Before Interest, Taxes, Depreciation and Amortization, as adjusted for certain items discussed below ("Adjusted EBITDA"), Adjusted EBITDA % of revenue, adjusted net income and adjusted net income per share as supplemental measures to GAAP.

Adjusted EBITDA and Adjusted EBITDA % of revenue are primary metrics by which LendingTree evaluates the operating performance of its businesses, on which its marketing expenditures and internal budgets are based and, in the case of adjusted EBITDA, by which management and many employees are compensated. LendingTree believes that investors should have access to the same set of tools that it uses in analyzing its results. LendingTree believes that adjusted net income and adjusted net income per share are useful financial indicators that provide a different view of the financial performance of the Company than adjusted EBITDA (the primary metric by which LendingTree evaluates the operating performance of its businesses) and the GAAP measures of net income from continuing operations and GAAP income (loss) per diluted share.

Adjusted net income and adjusted net income per share supplement GAAP income from continuing operations and GAAP income (loss) per diluted share by enabling investors to make period to period comparisons of those components of the nearest comparable GAAP measures that management believes better reflect the underlying financial performance of the Company's business operations during particular financial reporting periods. Adjusted net income and adjusted net income per share exclude certain amounts, such as non-cash compensation, non-cash asset impairment charges, gain/loss on disposal of assets, restructuring and severance, litigation settlements, contingencies and legal fees for certain patent litigation, and acquisition expenses, which are recognized and recorded under GAAP in particular periods but which might be viewed as not necessarily coinciding with the underlying business operations for the periods in which they are so recognized and recorded.

These non-GAAP measures should be considered in addition to results prepared in accordance with GAAP, but should not be considered a substitute for or superior to GAAP results. LendingTree provides and encourages investors to examine the reconciling adjustments between the GAAP and non-GAAP measures set forth above. LendingTree is not able to provide a reconciliation of projected adjusted EBITDA to expected reported results due to the unknown effect, timing and potential significance of the effects of the wind-down of discontinued operations and tax considerations.

Definition of LendingTree's Non-GAAP Measures

EBITDA is defined as operating income or loss (which excludes interest expense and taxes) excluding amortization of intangibles and depreciation.

Adjusted EBITDA is defined as EBITDA excluding (1) non-cash compensation expense, (2) gain/loss on disposal of assets, (3) restructuring and severance expenses, (4) litigation settlements, contingencies and legal fees for certain patent litigation, (5) adjustments for acquisitions or dispositions, and (6) one-time items.

Adjusted net income is defined as net income (loss) from continuing operations excluding (1) non-cash compensation expense, (2) gain/loss on disposal of assets, (3) restructuring and severance expenses, (4) litigation settlements, contingencies and legal fees for certain patent litigation, (5) adjustments for acquisitions or dispositions, and (6) one-time items.

Adjusted net income per share is defined as adjusted net income divided by the adjusted weighted average diluted shares outstanding. In cases where the Company reported GAAP losses from continuing operations, the effects of potentially dilutive securities are excluded from the calculation of net loss per diluted share from continuing operations because their inclusion would have been anti-dilutive. In such instances where the Company reports GAAP net loss from continuing operations but reports positive non-GAAP adjusted net income, the effects of potentially dilutive securities are included in the denominator for calculating adjusted net income per share.

LendingTree endeavors to compensate for the limitations of these non-GAAP measures by also providing the comparable GAAP measures with equal or greater prominence and descriptions of the reconciling items, including quantifying such items, to derive the non-GAAP measures. These non-GAAP measures may not be comparable to similarly titled measures used by other companies.

One-Time Items

Adjusted EBITDA and adjusted net income are adjusted for one-time items, if applicable. Items are considered one-time in nature if they are non-recurring, infrequent or unusual, and have not occurred in the past two years or are not expected to recur in the next two years, in accordance with SEC rules. For the periods presented in this report, there are no adjustments for one-time items.

Non-Cash Expenses That Are Excluded From LendingTree's Adjusted EBITDA and Adjusted Net Income

Non-cash compensation expense consists principally of expense associated with the grants of restricted stock, restricted stock units and stock options. These expenses are not paid in cash and LendingTree includes the related shares in its calculations of fully diluted shares outstanding. Upon settlement of restricted stock units, exercise of certain stock options or vesting of restricted stock awards, the awards may be settled on a net basis, with LendingTree remitting the required tax withholding amounts from its current funds.

Amortization of intangibles are non-cash expenses relating primarily to acquisitions. At the time of an acquisition, the intangible assets of the acquired company, such as purchase agreements, technology and customer relationships, are valued and amortized over their estimated lives. Amortization of intangibles are only excluded from Adjusted EBITDA.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

The matters contained in the discussion above may be considered to be "forward-looking statements" within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934, as amended by the Private Securities Litigation Reform Act of 1995. Those statements include statements regarding the intent, belief or current expectations or anticipations of LendingTree and members of our management team. Factors currently known to management that could cause actual results to differ materially from those in forward-looking statements include the following: adverse conditions in the primary and secondary mortgage markets and in the economy, particularly interest rates; default rates on loans, particularly unsecured loans; demand by investors for unsecured personal loans; the effect of such demand on interest rates for personal loans and consumer demand for personal loans; seasonality of results; potential liabilities to secondary market purchasers; changes in the Company's relationships with network lenders; breaches of network security or the misappropriation or misuse of personal consumer information; failure to provide competitive service; failure to maintain brand recognition; ability to attract and retain customers in a costeffective manner; ability to develop new products and services and enhance existing ones; competition; allegations of failure to comply with existing or changing laws, rules or regulations, or to obtain and maintain required licenses; failure of network lenders or other affiliated parties to comply with regulatory requirements; failure to maintain the integrity of systems and infrastructure; liabilities as a result of privacy regulations; failure to adequately protect intellectual property rights or allegations of infringement of intellectual property rights; and changes in management. These and additional factors to be considered are set forth under "Risk Factors" in our Annual Report on Form 10-K for the period ended December 31, 2015 and in our other filings with the Securities and Exchange Commission. We undertake no obligation to update or revise forward-looking statements to reflect changed assumptions, the occurrence of unanticipated events or changes to future operating results or expectations.
