

LendingTree Study Finds More than Half of My LendingTree Users Improved Credit Scores in Majority of 50 Metros Analyzed

May 21, 2018

LendingTree's latest study looks at where credit scores are rising in the 50 largest metros in the U.S.

CHARLOTTE, N.C., May 21, 2018 /PRNewswire/ -- [LendingTree®](#), the nation's leading online loan marketplace, today released its [study](#) on the top places with rising credit scores. With credit scores being a crucial component of personal financial stability and opportunity, LendingTree analysts decided to look at anonymized My LendingTree users who logged into their accounts in both the first quarter of 2017 and the first quarter of 2018 to determine the top metros for rising credit scores among the 50 largest in the United States.

[My LendingTree](#) users can log in any time to see an overview of their credit profiles and scores and receive real-time alerts of any meaningful changes to their reports, such as hard credit inquiries.

Below are some of the key takeaways from the study.

- Jacksonville, Indianapolis, Denver and Tampa saw the highest rate of rising credit scores among the 50 biggest metros from Q1 2017 to Q1 2018.
- Virginia Beach, Va., Los Angeles and Birmingham, Ala., had the lowest rate of rising credit scores, with 47 percent of Virginia Beach users raised their credit scores.
- San Jose (Silicon Valley) saw the most dramatic rises in credit scores, with the highest rates of people who raised their score by more than 75 points and 100 points.
- In the majority of the 50 metros analyzed, more than 50 percent of users improved their credit scores between Q1 2017 and Q1 2018.
- About one in three increased their scores by over 20 points, and 3.5 percent were able to improve their scores by 100 points or more.

Impact of Credit Scores

Increasing credit scores could reduce the cost of borrowing. See how a 50- or 100- point improvement in credit scores has a positive impact on the rate offers reviewed.

	Mortgage APR	Personal Loan APR
Baseline	5.4%	24.3%
50-point score increase	5.1%	17.0%
100-point score increase	4.8%	10.4%

Homebuyers who start with scores of 640 – 679 and improve them by 100 points before buying a home could save over \$28,000 over the life of a 30-year mortgage by qualifying for a 4.8 percent rather than 5.4 percent APR, assuming an average loan amount of \$234,437.

The APRs above are reported in LendingTree's monthly [mortgage](#) and [personal loan](#) offers reports, which show the average of the best offers made to LendingTree users each month within credit score bands. Score bands used for the rates are: Baseline (640-679), 50-point increase (680-719), 100-point increase (720-759).

"Some consumers want to know their credit profiles and scores out of curiosity, but My LendingTree does more than that; it aids them in achieving their financial goals. My LendingTree recommends the next steps a consumer should take to make improvements to their credit health and financial well-being," said Justin White, Vice President of Product Marketing at LendingTree.

White continued, "At LendingTree, we recognize that the credit system can be complicated. Our credit management tools offer actionable insights and real recommendations based on what we've learned from millions of consumers working toward accomplishing similar goals. Our tools help simplify a confusing process that requires education and discipline. We're thrilled to see that consumers are improving their credit."

Methodology:

We looked a sample of users who logged into My LendingTree in both the first quarter of 2017 and the first quarter of 2018 and compared their credit scores at each point in time to calculate that user's change in credit score. These results were then aggregated to the 50 largest metropolitan statistical areas by population. My LendingTree has over 8 million users and scores are provided by TransUnion.
